The easiest way to remove concrete build-up

Now you can solve the major problems associated with cleaning concrete equipment with a fast-working and safe approach. Liquid Hammer® is the first non-corrosive cleaning compound designed specifically to remove build-up from concrete hauling, handling and finishing equipment. The chemical does the work for you – and your equipment comes out clean, without any chipping or hammering!

Product Applications

Liquid Hammer is the safest and most aggressive concrete remover on the market. Liquid Hammer removes concrete without damaging painted surfaces, aluminum, chrome, rubber, or composite materials. Its non-corrosive formula means that even sensitive engine components, including radiators, can be cleaned without fear of damage. Liquid Hammer is safe on virtually everything. Use it to remove concrete, cement, lime scale, and all other mineral deposits.

Usage Instructions

Liquid Hammer can be applied via aerosol, low-pressure foaming system, sprayer, or brush and bucket. One application of the product will remove light build-up. Moderate to severe build-up may require regular applications over a period of days or weeks. Dilutions will vary depending on preference and frequency of use. Refer to the product label for specific dilution ratios and use instructions.

Safety Information

Liquid Hammer is safe for the operator, the equipment, and the environment. Use the product without fear of on-the-job injuries, long-term health issues, or waste stream and air quality issues. Refer to its MSDS for additional health and safety information.

SPECIFICATIONS

pH: 2.3
Specific Gravity: 1.11
VOC Content: Exempt
Shelf Life: One year minimum
Classification: Not regulated/ORM-D
Color & Form: Amber liquid
Odor: Burnt sugars

PACKAGING

12 x 18 Oz Aerosol Case
4 x 1 Gallon Case
2 x 2.5 Gallon Case
